

A visit to the Hereford Waterworks Museum, led by Linda Prenter
Wednesday, 17 October, 2018
Broomy Hill, Hereford, HR4 0LJ
£45 for members and £50 for non-members

Starts: 10:00am; Ends: approximately 4:00pm.

We will have exclusive access to this historic site which was the Victorian pumping station for Hereford's water supply. Our visit will include a guided tour of the Waterworks Museum which houses many important artifacts used in the pumping of water.

An essential part of the day is an opportunity to learn about the processes and practice some of the skills that Water Diviners use and about water extraction methods, pumping and filtration.

A Visit to Hereford Waterworks Museum, led by Linda Prenter

Date: Wednesday, 17 October 2018

Times: 10:00am to 4:00pm

Venue: Waterworks Museum, Broomy Hill, Hereford HR4 0LJ

Price: £45.00 members

£50.00 non-members

There are only 20 places available on this visit and are booked on a first-come, first-serve basis.

We will have exclusive access to this historic site which was the Victorian pumping station for Hereford's water supply. Our visit will include a guided tour of the Waterworks Museum which houses many important artefacts used in the pumping of water

An essential part of the day is an opportunity to learn about the processes and practice some of the skills that Water Diviners use - map dowsing; divining the location of underground streams and piped supplies; dowsing mineral content, pH, depth, flow, quality and quantity – and about water extraction methods, pumping and filtration.

This unusual event is an exciting opportunity for anybody interested in the process of finding, extracting and processing water on its way to our taps. It is also a great chance to learn new skills, practice and prove your dowsing skills in the context of Water Divining.

Further information about the site can be found at
