

British Society of Dowsers Training Programme

Advanced Earth Energies Dowsing, Working with Power Centres and Applying Geomantic Design (EE5)

Tutored by BSD Registered Tutor, experienced in earth energies dowsing and the design and construction of a variety of sacred spaces, in weekend format or minimum 12 hours tuition

Aims

- To give deeper understanding and applied experience of the integration of earth energies, land form, harmonic geometry and astronomical alignments in the design and construction of sacred spaces
- To give an understanding of the fundamental principles of intention, and of the intentional use of power centres and sacred spaces.
- To give guidance and coaching in working creatively with the spirit of place and earth energies

Objectives, at the end of the course the students will be able to:

- Demonstrate a deeper understanding of the role of landform, earth energies, sacred geometry and astronomical alignment in a wide a range of the world's religious structures, sacred sites and geomantic traditions
- Show that they understand the role and application of appropriate intention in the creation and use of sacred space, and of working co-creatively with the spirit of place.
- Demonstrate a theoretical understanding and describe a simple experience of the whole process of design and construction of sacred space from start to finish.

History and Principles Review

- The nature of the Spirit of Place and environmental consciousness
- Review of universal principles and introduction to design themes drawn from the world's many geomantic traditions
- Fundamental nature, influence and symbolism of the circle, cardinal directions and fundamental shapes
- Influence and creative use of solar, lunar & other relevant cycles of time including eclipses
- Role of landscape and non-structural elements
- Role of dowsing and influence of earth energies on the site

Understanding and Applying Appropriate Focused Intention

- Understanding the nature, principles, practice and ethics of intention
- The role and use of clear, ethical and appropriate intention in power centres and sacred spaces
- Review of range of cultural traditions of ritual and ceremony, & their underlying principles and purpose

Design & Construction A-Z

- Theoretical understanding and experience of the whole process of constructing a sacred space from start to finish

Deconstruction of Sacred Spaces

Understanding and coaching in the adaptation and deconstruction of intentional spaces, including the release of intention, portals and psychic boundaries, earth energies and other consciousness

Ethics and Psychic Hygiene

Review and development of all necessary considerations applying to working with earth energy power centres and sacred spaces, for the practitioner, the space itself and the landscape and other dimensions influenced.
