Dates for your diary:

Mon 14th December:**

Summer Connor. 'The Atlantean Energy Secrets of Templar Gothic Cathedrals.

We are delighted that Summer has agreed to give her latest talk. Gothic cathedrals are stunning bits of sacred architecture, but did you know that they are much more than that? They are also 'energy technology' that was designed by the Knights Templar to not only preserve their alchemical knowledge but also provide healing and spiritual connection for the people. Some say that the knowledge that they used to commission such buildings came from Atlantis survivors via the Egyptian mystery schools, through to the records that they found under the Temple mount in Jerusalem during the Crusades.

These energy structures use light, sound, sacred geometry and earth energies to re-set and elevate the people who enter in them.

Summer will show us exactly how this works and the effects it has on the human form and soul. She will also explain how this information is very relevant for today and the Templars knew this and have gone to great lengths to preserve this wisdom.

Summer will also introduce us to the new sacred geometry for the ascension process.

Come on this journey of mystery school knowledge - you will never look at a church in the same way again.

**NB. this is the second Monday of the month, not third

Elona Woods – From Forest, Grassland to Stone. Rediscovering What Our Ancestors Never Forgot

This talk takes us on a journey through sacred landscapes, exploring the deep relationship our ancestors shared with the natural world. Along the way, it asks what we have forgotten, inviting us to reflect on ancestral memory and the ancient wisdom that still lives within us. Many on the journey back to self are not discovering something new; they are tapping into something their unconscious has always known.

Elona Woods is a homeopath, herbalist, tarot reader, astrologer, podcaster and author of 'The Voice Beneath All Roots'. Her work explores our relationship with the natural world and the ancestral wisdom passed down through generations. Through her writing and practice, she invites others to explore what has been forgotten and remember what has never truly been lost.

News and Events

We are happy to advertise news and events that we consider relevant to our group ethos. Please forward anything you'd like included. *Deadline for December will be December 1st*
